## TOWNSHIPS &amp; PARISHES

This list contains:

- Column 1 The reference numbers to the townships or civil parishes\* in North Yorkshire created under the Local Government Act 1972 as shewn on the map overleaf
- Column 2 The names of the townships or civil parishes in North Yorkshire created under the Local Government Act 1972; the names of places which were formerly in the North Riding but which since 1974 have been in the counties of Cleveland and Durham (indicated in column 1 by the letters C & D respectively and shewn between square brackets); and the names of hamlets or other places which have not been constituted separate parishes under the act or which are easily confusable. (The last category of places do not have numbers beside them but are followed, in brackets, by the names of the townships or civil parishes in which they now lie. In these cases the additional information normally shewn in columns 3 to 5 is given only when it differs from that given against the name of the relevant civil parish)
- Column 3 The name of the ecclesiastical parish or chapelry in which each place was situated for the purpose of registering baptisms, marriages & burials. Where these names are the same as the names of the townships or are shewn under the name of the relevant township they are not repeated in this column.
- Column 4 The name of the wapentake in which each place was situated
- Column 5 The name of the rural or urban district or borough in which each place was situated between 1895 and 1974. Boundaries & designations of some of these districts were altered from time to time (and especially in 1934 as a result of a review after the Local Government Act 1929). In some cases therefore the names of more than one district appear in this column. The letters in brackets after these names indicate the riding in which they were situated before 1974 - North Riding (NR), East Riding (ER), or West Riding (WR)

The districts created in 1974 comprise the civil parishes numbered as follows in this list:

Craven	001 - 073
Richmondshire	074 - 174
Hambleton	175 - 352
Scarborough	353 - 403
Ryedale	404 - 559
Selby	560 - 647
Harrogate	648 - 798
York	799

In 1996 the district of York City together with the townships of Acaster Malbis, Askham Richard, Askham Bryan, Bishopthorpe, Clifton (without), Copmanthorpe, Deighton, Dunnington, Earswick, New Earswick, Elvington, Fulford, Haxby, Heslington, Hessay, Heworth (without), Holtby, Huntington, Kexby, Murton, Naburn, Osbaldwick, Nether Poppleton, Upper Poppleton, Rufforth, Rawcliffe, Skelton, Stockton on the Forest, Strensall, Towthorpe and Wigginton were removed from the county of North Yorkshire and were united to form a single authority exercising both county and district council powers.

\* Township was the term normally employed in Yorkshire up to the end of the nineteenth century to designate the smallest unit of civil administration and was replaced for this purpose by the word parish in accordance with the terminology of the Local Government Act 1894. This change, however, has had the effect of causing much confusion with the area designated a parish for ecclesiastical purposes - i.e. the area of responsibility of the incumbent of a parish church. In the North Yorkshire County Record Office, therefore, the word township is normally used instead of the word parish in the sense of "civil parish". These terms however should be used with caution: a number of ancient townships do not have modern equivalents in civil parishes, having been amalgamated with, or absorbed by, neighbouring civil parishes or other administrative units, especially in the vicinity of expanding towns. This list is intended to contain all the names of townships existing in the eighteenth & nineteenth centuries as well as the names of all civil parishes existing in North Yorkshire in 1984, but it must not be treated as definitive.

No.	Township/Place	Parish/Chapelry	Wapentake	RD/UD/Borough (Riding)
