This is a list of all the ancient ecclesiastical parishes and chapelries in North Yorkshire and the North Riding. Parishes and chapelries created since about 1800 are normally listed only if they have deposited registers in the record office or if the dates of their registers are known. Each of these ecclesiastical parishes or chapelries frequently contains within its boundaries several villages, hamlets, townships or civil parishes.

Parish registers are available for public consultation in microfilm and/or transcript form. In order to protect unique documents from wear and tear the original registers are not generally available for public consultation.

The first date given after each parish name in the following list is that of the earliest register. This is followed by the dates of the registers available for consultation in the Record Office. Gaps of twenty years and more are indicated.
