## INTRODUCTION

This is a list of all the Non-conformist registers and monumental inscriptions available at the North Yorkshire County Record Office. The list of monumental inscriptions includes both Church of England and Non-conformist churches. For a list of the Church of England registers available at the Record Office see Guide No. 2.

The registers may be consulted in microfilm form and the microfilm reference is given at the far right hand side of the page. Original registers are not generally available in order to protect them from wear and tear. Monumental inscriptions are available in the form of transcripts. The list notes whether the recordings are from stones in the church or churchyard and whether a location plan of the churchyard stones is available.

With the exception of Methodist circuit registers, which are listed under the name of the circuit, the guide is arranged in alphabetical order of townships, with cross references where necessary.
